BSides Memphis

INTRODUCTION

BSides Memphis is a grassroots cybersecurity conference built by and for the local security community. Originally launched by Memphis security professionals, the event is now being revived by a new organizing team committed to honoring its roots while bringing the community back together to build something even stronger.

As a sponsor, you have the opportunity to directly support the local cybersecurity community while showcasing your organization to a focused and engaged audience. Your contribution ensures we have the space, resources, and experience needed to make BSides Memphis happen—no matter what.

Whether it's covering essential logistics, providing a unique perk, or supporting specific aspects like catering or badges, every level of support brings us closer to making this event a reality.

ABOUT US

BSides Memphis is a community-driven cybersecurity conference rooted in collaboration, creativity, and accessibility. We bring together security professionals, students, hobbyists, and anyone curious about cybersecurity to learn, share, and connect in a supportive environment.

Our mission is to create a space where ideas flow freely, where newcomers can get guidance, and where seasoned practitioners can inspire the next generation. From talks and workshops to hands-on activities like Capture the Flag competitions, BSides Memphis is designed to showcase local talent, foster learning, and strengthen the cybersecurity community in the region.

While this is our first year back, we aim to establish a conference that grows sustainably, highlighting Memphis' unique culture and its place in the broader tech and security landscape.

We are operating as a not-for-profit as we work towards full non-profit status (aka we're working on all the paperwork and filing).

Vision

- Build a recognizable cybersecurity hub in Memphis.
- Create a conference that grows stronger and more influential each year.
- Make Memphis a place where security talent connects, learns, and stays.

Mission

- Deliver an accessible, community-driven cybersecurity conference.
- Provide a platform for both new and experienced voices to share knowledge.
- Provide a platform for both new and experienced voices to share knowledge.

BSides Memphis

ABOUT THE EVENT

Event Details:

- October 3rd @ Epicenter Memphis
- 9am - 5pm

As we are in a revival state, we do not have previous attendee stats to go off of. What we can provide is our audience metrics (at the time of writing):

- ~300 followers across all socials and continuing to grow with active outreach
- 2700 total impressions and growing

We have received positive feedback and interest in bringing a BSides back to the Memphis region from potential attendees, speakers, and other BSides leadership from our sister organizations.

Event Highlight

Expert-lead talks on a wide range of cybersecurity topics

Hands-on learning experiences

Community and Networking

Memphis Hacking Culture

Benefits of your Sponsorship

BSides Memphis

Sponsoring BSides Memphis connects your organization with a passionate and highly engaged cybersecurity community. Our sponsors help make the event possible while gaining meaningful visibility with security professionals, students, and emerging talent from across the region.

Direct Access to Security Talent

Connect with practitioners, researchers, and aspiring professionals in an environment designed for real conversations—not just booth traffic.

Brand Visibility in the Community

Show your support for the local cybersecurity ecosystem while putting your brand in front of attendees, speakers, and community leaders.

Support the Next Generation of Security

Your sponsorship helps provide an accessible event where students, career changers, and early-career professionals can learn, connect, and grow within the industry.
